PROFESSIONAL SUMMARY

Adobe Certified Professional – Adobe Commerce Developer with 4.5+ years of hands-on experience building, customizing and optimizing enterprise e-commerce platforms and full-stack web applications. Strong in Magento 2, PWA Studio, GraphQL, Laravel, CodeIgniter 4 and Next.js, with a track record of delivering custom modules, third-party integrations (Salesforce CRM, Vinculum ERP, payment gateways) and 90+ PageSpeed scores. Led a full website migration to a decoupled Next.js + CodeIgniter 4 stack on VPS, lifting the GTmetrix grade from D (65%) to A (93%). Seeking a long-term engineering role in a growth-focused organization.

KEY TECHNICAL SKILLS

- E-Commerce:** Adobe Commerce (Magento 2), Custom Module Development, EAV Architecture, Extension Customization, Theme Development, PWA Studio, GraphQL APIs, Payment Gateway Integration
- Backend:** PHP (7.x / 8.x), Laravel, CodeIgniter (3 & 4), RESTful APIs, OOP, MVC, Python, Django
- Frontend:** Next.js, React.js, JavaScript (ES6+), jQuery, HTML5, CSS3, Tailwind CSS, Angular, Vue.js
- Database & Version Control:** MySQL, Git, GitHub, Bitbucket
- DevOps & Infrastructure:** Linux (Ubuntu), Nginx, Apache, LEMP Stack, VPS Server Management, Cloudflare (CDN & Security), Azure DevOps
- Performance, SEO & Analytics:** Core Web Vitals, PageSpeed Insights, GTmetrix, Semrush, Google Analytics 4 (GA4), Google Search Console
- Integrations:** Salesforce CRM, Vinculum ERP, Stripe, Azure Blob Storage
- AI-Assisted Development:** Claude, GitHub Copilot

WORK EXPERIENCE

PHP Developer

Dec 2024 – Sep 2026

All e Technologies Ltd (Alletec), Noida

- Led the migration of the corporate website alletec.com from legacy CodeIgniter 3 to a decoupled stack with Next.js (frontend) and CodeIgniter 4 (backend API).
- Migrated hosting from shared hosting to a VPS (Linux, Nginx) and managed the server: security patches, uptime monitoring and Nginx tuning.
- Improved GTmetrix grade from D (65%) to A (93%): performance 57% to 97%, structure 78% to 88%, LCP 3.8s to 813ms, page size 3.66MB to 2.43MB.
- Achieved a 90+ PageSpeed Insights score and stronger Core Web Vitals through SSR, image optimization and bundle splitting.
- Secured and accelerated the site with Cloudflare (security rules and CDN caching).
- Initiated and set up two internal Laravel applications, a File Management System and a Knowledge Base application, building the project foundation and core structure (in development, not yet launched).
- Tracked and fixed site issues using Semrush, GA4 and Google Search Console; mentored junior developers and interns on coding standards, Git workflows and code reviews.

Software Developer – PHP

Jun 2024 – Nov 2024

IDS Logic Pvt Ltd, Noida

- Customized and enhanced Magento PWA (Progressive Web App) storefronts for fast-loading mobile and desktop experiences.
- Developed custom Magento 2 themes and frontend components aligned with client brand guidelines and UI/UX standards.
- Handled debugging, cross-browser testing and backend query optimization to improve application responsiveness.

Software Developer – PHP

Aug 2022 – May 2024

Zip Infosolution Pvt Ltd (Growisto), Indore

- Built, customized and maintained enterprise Magento 2 e-commerce applications and Laravel-based web solutions.
- Engineered custom Magento modules, extensions and GraphQL endpoints to extend core platform functionality.
- Integrated third-party systems including Salesforce CRM, Vinculum ERP and secure payment gateways.
- Optimized website speed through efficient code and server-side configuration.

Compile Technologies Pvt Ltd (HackerKernel), Bhopal

- Developed backend services for Laravel applications following MVC patterns and clean-code principles, with exposure to Vue.js.
- Worked with QA to identify edge cases, resolve bugs and run unit tests; took part in Agile/Scrum standups, sprint planning and reviews.
- Built foundational skills in server administration and hosting environments.

KEY PROJECTS

Alletec.com | Next.js, CodeIgniter 4 | www.alletec.com

- End-to-end migration of the enterprise website from a legacy monolith to a decoupled architecture; integrated CRM functionality and streamlined content updates.
- Delivered a 90+ PageSpeed score with SSR, image optimization and code splitting, supporting better SEO rankings.

Atomberg | Magento 2, React.js | atomberg.com

- Developed and maintained a high-traffic e-commerce platform; built custom reporting modules and GraphQL endpoints.
- Integrated Salesforce CRM and Vinculum ERP for order and inventory synchronization.

Wearer Fashion | Magento 2, PWA Studio | wearer.in

- Delivered a mobile-first fashion store from scratch on PWA Studio with a custom brand theme, payment gateway integration and an optimized checkout flow.

Kaya Clinic | Magento 2, Adobe Commerce | www.kaya.in

- Full-cycle development and maintenance of a skincare e-commerce platform; customized the blog section for SEO and tuned the backend for campaign traffic spikes.

SmarterEMR | CodeIgniter, MySQL | app.smarteremr.com

- Multi-tenant EMR platform with role-based access control, Stripe and Azure Blob Storage integrations, and automated PDF/CSV reporting.

Mazedan Digital Library | Laravel 8, React.js | mdl-dev.mazedan.com

- Library management system built from scratch with a subscription module and IP-based institutional access control.

Suvlaav Android App | Laravel, MySQL | suvlav.com

- Backend APIs and admin panel for a wholesale e-commerce Android app covering catalog, orders and user management.

Other projects

- **Token Booking** (Laravel, Angular) – token-based doctor appointment system with real-time admin dashboard and REST APIs – drforu.sbs
- **Physics Query Hub** (Laravel, Angular) – Q&A platform with admin dashboard and permission management – physicsqueryhub.sbs
- **Contents.com** (Laravel, Vue.js) – business logic for content creation and order workflows on a Generative AI platform – www.contents.com
- **SolarSquare** (Laravel, WordPress) – technical audits and optimizations for page speed and Core Web Vitals – www.solarsquare.in
- **HackerKernel Website** (Laravel) – recruitment portal with job posting and resume submission pipeline – hackerkernel.com

CERTIFICATIONS

- **Adobe Certified Professional – Adobe Commerce Developer**, Adobe (Issued Nov 2023, valid till Feb 2028) – [Verify credential](#)
- **Technical Support Fundamentals**, Google / Coursera (Nov 2020) – [Verify credential](#)
- **Cutshort Certified PHP – Advanced and Laravel – Basic**, Cutshort (Apr 2024) – PHP, Laravel

EDUCATION

Diploma in Information Technology

2018 – 2021

Government Polytechnic Mahoba (BTEUP, Lucknow) | 78%
